

Country	Programme Name	Schedule	Contractor Team	Recent Procurement Activity	Notes
Australia 	Land 125	Spiral Development Action Plan dating from 2004. Phase 2B equipment completed. Phase 3 being acquired	Includes Elbit Systems, Harris, Thales & Selex	Selected Elbit for Dismounted BMS in 2010. Thales continues work with upgraded Austeyr	Phase 4 requirements unscoped
Austria 	Soldat der Zukunft	Concept Phase concludes 2011. Acquisition postponed to now begin from 2015	To be awarded	Modified Steyr AUG / StG 77 assault rifle and new uniform mandated items	Army Exhibition in Graz in October. Harmonised with EDA CEDS programme
Austria 	Soldat 2015	Recently introduced initiative. Near term procurement of radios, hearing protection and head subsystem	To be awarded	Madritsch delivered first batch of its AG77 A1/ML40 UGL	Provisional title given to near term procurements
Belgium 	Belgian Soldier Transformation (BEST)	R&D and market studies	Decision on joining VOSS in 2011 for Smart Vest	Belgium deploys 600 troops in Afghanistan	Est. 4000 sets of equipment required
Brazil 	Combatante Brasileiro (COBRA)	2007 Army General Staff endorsement. R&D and testing and evaluation phase until 2013 linked to AFV work	To be awarded	Acquired FELIN related equipment from DGA in 2009. New Technology Park plans for soldier technology	Two versions planned: Amazon and Regular. Proposed comms solution tested in Haiti
Canada 	Integrated Soldier System Project (ISSP)	RFP in Autumn 2011 with responses back by Spring 2012. Contract award in early 2013. Deliveries scheduled for Spring 2014	To be awarded	ISS will be procured & supported via two different contracts: the Acquisition Contract for the integration, qualification and acquisition of the ISS followed by the Optimized Weapon System Support for long term support	Expected service life of the ISS will be 90 months (roughly 7.5 years) with 27,060 hours system operating life
Croatia 	'Future Soldier'	EDA/LCG/1 participation only on C4I	Procurement for Afghanistan deployment inc. Motorola GP300, Kroko ballistic vest, Sestan Busch helmet	New uniform and load carriage procured. First 1000 VHS 5.56mm assault rifle delivered	Potential new personal radio requirement from 2012
Czech Republic 	Voják 21 'V21' or Soldier 21	V21 2004-6 single Demonstrator. Squad level 'Sesedak' experimentation in 2007-9	VOP-026 led V21 and 'Sesedak'	New Ceska Zbrojovka assault rifle postponed in 2011 due to funding	New sniper rifles and FAC C4I fielded in Afghanistan

Country	Programme Name	Schedule	Contractor Team	Recent Procurement Activity	Notes
Denmark 	'Danish Army Network Enabled Soldier' (DANES)	Work on integrated SMP ended 2005 in favour of incremental acquisition. May procure systems from 2015-20. Incremental procurement in meantime for Afghanistan. Move to acquire dismounted BMS 2009-14	As equipment	Recent funding of Aimpoint laser light module, ballistic eye protection, first aid kit, combat vest and Personal Role Radio	Significant emphasis on training, IFF, sustainability and mobility 2009-14
Finland 	Finnish Warrior	Technology Programme 2010 (TP2010) until 2014. Fielding from 2017	TP2010 includes Savox as integrator and Millog, Nethawk and Insta	Tender for infantry hand held thermal imagers began late 2010	Three versions of system required for Territorial Troops, Regular and SF
France 	FELIN	Series delivery begins 2010 1st Bat. fully equipped Summer 2010. Total of 22,588 equipment sets ordered est. \$1billion	Sagem	New RIF radio in 300-400MHz or 1.3MHz in 2013	Could be deployed to Afghanistan in 2011
France 	FELIN V.2	Technology Roadmap/ Concept phase	Sagem	Additional Integrated Red and Blue Force Tracking, UGVs, fuel cells and FAMAS replacement	Probable point at which FELIN integrated into Scorpion
Germany 	IdZ-1/BS	April 2010, Germany's (BWB) signed a contract with EADS Defence & Security for a further 220 units of the IdZ BS	Cassidian	A total of 2500 systems now acquired	Basis for Warrior 21 C4I
Germany 	IdZ-2/ES	Risk reduction 2006-8. Pre Series contract 2009. 2011 trials and contract late 2011/early 2012 for 40 systems	Rheinmetall	Alpine Testing begins mid 2011	Total requirement for 9040 systems
Greece 	'Future Soldier System'	Studies linked to EDA	To be awarded	50 Theon Sensors NX-122A NVG in 2009	Programme postponed indefinitely
Hungary 	'Future Soldier System'	Joined EDA work in 2007	To be awarded	Selected BMS in 2009	Programme postponed indefinitely

Country	Programme Name	Schedule	Contractor Team	Recent Procurement Activity	Notes
India 	Futuristic Infantry Soldier As a System (F-INSAS)	Phase 1 2012 weapons, body armour, clothing and individual equipment Phase 2 ISTAR 2015. Phase 3 C4I 2020	To be awarded	Began INSAS replacement programme in 2008	Related BMS due for fielding from 2017. DRDO developing UGL and airburst ammunition
Israel 	Israeli Advanced Soldier	First deliveries of 'Dominator' system in 2009	Elbit Systems prime contractor	IDF assesses Elbit's Skylark II UAV	Integral part of Digital Army Programme
Italy 	Soldato Futuro	Testing at Forza NEC with 62 V1.2 Systems. Critical Design Review scheduled end 2010. Delivery of 558 v.2.0 systems in 2011	Selex Communications, Larimart, Selex Galileo, Beretta & AeroSekur	Significant testing of ARX-160 assault rifle in Afghanistan with Folgore Brigade	Testing closely integrated with Forza NEC work
Japan 	Advanced Combat Infantry Equipment System (ACIES)	Evaluation 2005-8. Demonstrators in 2008. LRIP deliveries 2011	Hitachi Summer 2010	Type 89 5.56mm assault rifle modified for accessories for deployments to Iraq	Brentronics reported as battery supplier
South Korea 	'Future Soldier'	Concept and development phase. Acquisition from 2016 to field in 2020	To be awarded	K11 airburst grenade equipped rifle acquired	Defence budget rise of six percent in 2011
Malaysia 	'Future Soldier'	Study phase unfunded programme	Sapura has made proposal	Air Force SF acquired RF-7800S	Malaysian Army Future Soldier Combat Uniform MK II demonstrated in early 2010
Netherlands 	VOSS (Improved Operational Soldier System)	Pre-Study Phase completed late 2010. Study Phase to mid 2011. Field from 2014	Smart Vest, power Supply, Load Carriage and Protection	Contract for Fokker E-Lighter fuel cell expected over Winter	Dutch only requirement for 5500 Systems. November RFP for 4000 NVG
Netherlands 	VOSS 2	Scoping Requirements	Includes enhancement for SF requirements	C7/C8 Assault rifles replaced from 2015	Joined EDA WOLF urban radio work
Norway 	NORMANS (Norwegian Modular Arctic Network Soldier)	Successful C4I trials in Oct. 2008. Further small scale de-risking trials in 2010	Thales, Teleplan and Kongsberg	Norway selected HK416 in 2007	Norway operates Raven UAV in Afghanistan
New Zealand 	'Future Soldier'	Incremental acquisition in similar areas to Land 125 Phase 2B	To be awarded	Evaluated BAE Systems ULW load carriage in 2010	Cuts in November Defence White Paper
Pakistan 	Concept phase	To be awarded	To be awarded but inc. POF on lethality	Prioritising NV and lethality in near term	Assessing new flamethrower technology
Poland 	Tytan	New procurement plan and requirements issued in late 2010. Tytan 0/'Mini Tytan' to be fielded late 2012. Tytan 1 in 2014-15	Expected to be led by Bumar	Tytan 0 integrates existing equipment for Afghanistan. Titan 1 will inc. new SA and NVG	'Digital Battalion' testbed funded for 2011

Country	Programme Name	Schedule	Contractor Team	Recent Procurement Activity	Notes
Portugal 	Soldado do Futuro	Experimentation from 2008. Next phase post 2012	To be awarded	Pandur deliveries rescheduled	Bid process was expected to begin in 2011-12
Romania 	Romanian Individual Fighting System (RIFS)	Initial trial with demonstrator	To be awarded	60 MaxxPro Dash MRAPs for Afghanistan	Harmonised with EDA CEDS. Using the Quandtum3D Expedition DI systems with VBS2
Serbia 	'21st Century Soldier'	Study Phase	To be awarded	First acquisition based around Zastava 5.56mm weapon system	Some expectation of a 1500 strong buy from 2014
Singapore 	Advanced Combat Man System (ACMS)	ACMS delivered to first battalion in 2009	ST Engineering, ST Electronics, ST Kinetics and DSTA	Expected to complete in 2012	Further R&D work on rationalising legacy equipment notably NVG, navigation and security
Spain 	Combatiente Futuro (ComFut)	Design and Development Phase with 36 systems concludes November. Production phase planned from 2011 planned. Additional phase for further testing expected instead	Cassidian prime contractor plus Indra Sistemas, Iturri, Amopack SL, Fedur and GMV	Further modifications to rifle and optronics	Full systems weighs 45Kg. Night vision, binoculars and C4I potentially fielded in Afghanistan
Slovakia 	Prokročily Individualny Bojovny System (PIBS)	Last ten man squad trials in 2009. Funding halted after Concept Development and Experimentation Phase. Original plan was to equip brigade from 2012	Magic Corporation plus Cassidian, Thales and H&K for trials using 'IdZ-1/BS' equipment	Fielded new load carriage systems and personal protection including Helmet	New assault rifle from 2017
Slovenia 	21st Century Warrior or Slovenian Warrior	Pre-study phase 1998, Study phase 1999-2005 procurement from 2002	Various suppliers	New small arms throughout	Est. cost €18.000 per soldier
South Africa 	African Warrior	Requirement Operational Capability was approved in 1999 Functional User Requirement Statement and the Logistic User Requirement in 2003 Project Study Report and the Customer Selection 2004. Now phased procurement	To be awarded	Recent acquisition in night vision, communications and navigation	R4 replacement in long term

Country	Programme Name	Schedule	Contractor Team	Recent Procurement Activity	Notes
Switzerland 	IMESS (Integriertes Modulares Einsatzsystem Schweizer Soldat)	Sept-Oct 2008: Field trials Since Nov 2008. Planning of maturation phase Spring 2011. Field trials 2011 and qualification acquisition of a further 100 system. 2015/16 – first series production	Cassidian & Sagem selected as prime contractor November 2007 Contract for 25 IMESS prototypes with options for maturation and series production of 100 – 5000 systems	Additional SIMUG battlegroup training system in 2009	Schedule extended in Armasuisse 2009 Procurement plan
Sweden 	MARKUS Markstridsutrustad Soldat (Swedish Project for Development and Acquisition of Equipment for Foot Soldiers)	Plans finalised in 2010. Integrated Capability for MARKUS V1 from 2014. New small arms family from 2017	To be awarded	Bought RF-7800S in two batches. New C4I RFP in May 2010, fielding in 2012-14	New wheeled IFVs in 2014
Thailand 	SFT 21	Concept phase	To be awarded	Acquired Tavor in 2007	Infantry operate ITL Mini SEAS NVG
Turkey 	'Future Soldier'	Concept phase	To be awarded	Fielding PRC-9651 hand-held SDR at squad level	Defence co-operation agreement with Saudi Arabia in 2010
United Kingdom 	Future Integrated Soldier Technology (FIST) 1A	Training period, deployment to Afghanistan 2011. SISTA-era element already deployed	Thales PCMO for Assessment Phase. FIST IA equipment sourced from ELCAN, Qioptiq, Uniscope, Vectronix and Istec	Going ahead with CLR. Acquiring new Soldier Beacon SA capability	DC3 programme worth £660m to 2015
United Kingdom 	FIST 2	New home for FIST 1B from 2015	Currently Thales PCMO	Major R&D thrust on burden reduction	Part of System Integration epoch
United States 	Marine Expeditionary Rifle Squad (MERS)	Continuing Soldier as a System approach	Various Suppliers	RFI in October for rifle accessory control unit to control radio and other worn equipment such as the AN/PRC-153 intra-squad radio	Initial limited fielding of IAR scheduled for December

Country	Programme Name	Schedule	Contractor Team	Recent Procurement Activity	Notes
United States 	Nett Warrior	LUT in November 2010. Downselect to one or two contractor(s) in March 2011 and Milestone C/LRIP and contract award by 3Q 2011	Rockwell Collins, Raytheon and General Dynamics	Significant power testing as part of LUT sidebars	Initial requirement for 20,511 systems in first five years of production
United States 	Land Warrior	Development complete	General Dynamics C4 Systems	1-25 Stryker BCT completed its network training. The 4th battalion 5th Special Forces Group began training in November	Legacy 'Manchu' equipment used widely in FCS/E-IBCT work
United States 	Air Warrior	Began 2003. Increment 3 now completing delivery	Includes BAE Systems, Westwind Technologies, Carleton Technologies, Med-Eng Systems, Raytheon, Secure Communication Systems, Telephonics, General Dynamics C4S and Science and Engineering Services	Type 1 AWIS DT/OT in November with Florida ANG and NSA certification scheduled for December	Equips every UH-60 Blackhawk A, L and M in the fleet and the CH-47 D and F Chinook
United States 	Air Soldier	The first increment of Air Soldier will field to the first Army aviation unit in the 2013 timeframe. The next increment will follow in the 2015 timeframe and the final increment is scheduled for 2018	To be awarded	Contract award for Air Soldier Inc 1a is expected in 2011 covering Modular Aircrew Common Helmet or an improved legacy HGU-56/P helmet	Goal is to have a 25 percent less bulk on the aircrew members and about a 20lb weight saving
United States 	Mounted Warrior	Contracts in 2005. 165 systems deployed with 4th Battalion 9th Infantry Regiment in Iraq in 2007-8	General Dynamics C4 Systems and Microvision	Increment I provided the Mounted Warrior Helmet-Mounted Display	Became MSS Increment I
United States 	Mounted Soldier Systems (MSS)	Engineering Manufacturing and Development phase awarded May 2009. System testing scheduled September 2010	Rockwell Collins	MSS will cover HMD, Cordles Comms, Microclimate cooling Soldier force protection	Will initially equip M1-A2 SEP V2, M2-A3 Bradley, M3-A3 Bradley and M113 Medical Evacuation Variant vehicles
