

PRESS RELEASE

## PARADIGM MAKING SATCOM SIMPLE AT SATELLITE 2019 Showcasing the new, 'just add power' MANTA terminal

This year at Satellite 2019, Paradigm is showcasing their new [MANTA<sup>®</sup>](#) terminal, a game-changing comms-on-the-go and comms-on-the-pause self-pointing single case terminal.

The MANTA is the complete solution for 'anywhere' IP data connectivity via Wi-Fi and Ethernet by just adding power – satcom made simple.

The versatile MANTA operates straight 'out-of-the-box' for simple Deploy & Go satcoms or can be quickly fitted to any vehicle (land or sea) for comms-on-the-move. The MANTA uses software beam forming for satellite acquisition and tracking; the on-board PIM<sup>®</sup> provides an optimised satellite service requiring no specialist skills to offer easy, high speed data service anywhere.

The MANTA is Paradigm's latest PIM-enabled terminal providing rapid, high-speed connectivity from a single case. Rugged, versatile and discreet, the MANTA is the complete solution providing integrated RF, modem and terminal control, as well as a

handheld or dash-mounted 'Remote' for live beam heading, signal strength and system status and control info.

Paradigm's other PIM-enabled terminals include the '*internet in a backpack*' [SWARM<sup>®</sup>](#) and the flyaway [CONNECT100T](#) and [HORNET](#) range; both terminals integrate the PIM to point the antenna.

At Satellite 2019, [videos](#) of all Paradigm's PIM-enabled terminals will be available to view on our booth (#938) with both the SWARM and MANTA available for attendees to be hands-on with.

Ongoing booth activities will include demonstrations of the straightforward operation of the PIM, with attendees able to experience how easily the onboard visual and optional audio cues guide the user during the pointing process for our flyaway terminals.

Live 'on-vehicle' demos of the MANTA are also planned during the event. For more information or to book a meeting with our team please contact [sales@paracomm.co.uk](mailto:sales@paracomm.co.uk) or call +44 (0)1420 88199

#### **About Paradigm**

Paradigm ([www.paracomm.co.uk](http://www.paracomm.co.uk)) provides optimal, innovative and reliable satellite communication and control solutions at a competitive price.

Paradigm is a UK-based, independent and privately owned company with Europe's largest satcom warehouse. Incorporating an extensive logistics capability, Paradigm is able to deliver extremely efficient and cost-effective global services and unique solutions, from the provision of satcom equipment and terminals to the design and installation of complete turnkey systems.

Paradigm has extensive engineering experience designing and delivering customised satellite terminals and earth stations for a wide range of industries and sectors, developing close relationships with customers, and giving valuable insight into their key requirements.
